

Safety Committee AGENDA
College of Mines and Earth Sciences
08 January 2018 – 9:00-10:00 am, FASB 303

1. Approval of meeting minutes

2. Announcements

- Active shooter presentation -January 26 @ 4PM in 295 FASB
- Hate Crimes Forum - January 30, 1:00 to 4:00 PM, Union Saltair Room
- Any others?

3. Follow-up Items

- Safety Competition
- Stop the Bleed

4. Discussion Items

A. Awareness about Preparedness

- 72 hour kits from Emergency Essentials
 - **Department staff should have emergency kits**
 - **Departments should pay for them**
 - **Will open it up to staff and faculty to perhaps order one large order**

B. Website

- Comments or suggestions?

C. Building Evacuations

- Planning to schedule another fire drill this semester, dates?
 - **It seems like the best time would be during the later half of the semester, perhaps later March on a Friday afternoon.**
 - **The evacuation maps need to be updated in WBB, the existing ones were done in the 90s. **Wil will work on this.****

D. Approval of Compressed gas SOP

E. Other

- **There is considerable concern about evacuation of WBB during an Emergency.**
 - **It is possible that people will be trapped in their offices.**
 - **It's a good idea to be prepared for that.**

- What are the best evacuation routes and what should be done if those are blocked?
- Perhaps try to have Clint or Jeff come to one of the meetings and discuss this.
- It seems that a lot of this topic is out of the control of this committee.
- Is it possible to replace the fire doors to the stair wells with doors with glass inserts? **The answer from the Fire Marshall is No.**

- WBB Stair chair in in place and is located in the NE stairwell on the 8th floor.

- Investigate having a course on aggression diffusion

- Develop a best practice for dealing with the public

- Water Quality in WBB is an issue. The Drinking fountains are filtered so if there is a problem with a fountain then it should be reported to facilities. There is little that can be done about the faucets short of re-plumbing the building.
